02.20.1 Wood in the rough

Proposal Wood in the rough - in NACE class 02.20 there are classified activities related with the production of charcoal in the forest (using traditional methods), which is not reflected in CPA 02.20.1. At present CPA 20.14.72 includes charcoal manufactured in the process of dry distillation of wood (carbonization of wood) outside the forest (NACE 20.14).

CC Out of scope for the CC

Comment

Proposal Add "seaweed" in the title of the grouping. In NACE 20.10 there is "processing of seaweed". Seaweed is obtained in NACE/CPA division 03. However, there is no processed seaweed in CPA. The suggested heading after the change: "Crustaceans processed or preserved otherwise; molluscs and other aquatic invertebrates and seaweed, otherwise prepared or preserved "

10.41.6 Animal or vegetable fats and oils and their fractions, hydrogenated, esterified

Proposal In the title of grouping CPA 10.41.6 included are "esterified" fats. Esterification is part of chemical processing. The class does not include the processing of oils and fats in chemical processes, classified in 20.59. NACE 10.41 includes processing of vegetable oils by blowing, boiling, dehydration, hydrogenation, etc. We suggest to remove the word "esterification". The suggested title after the change would be : " Animal or vegetable fats and oils and their fractions, dehydrated, hydrogenated, but not further prepared" . Esterified fats and oils would be move to grouping CPA 20.59.20 " Chemically modified animal or vegetable fats and oils; inedible mixtures of animal or vegetable fats or oils"

10.85.1 Prepared meals and dishes

Proposal Difference in definition of a prepared dish according to NACE and CPA. According to NACE these are "frozen or canned" dishes, according to CPA "canned or vacuum-packaged". The proposal of a new definition: "The category includes ready-made (e.g. prepared, seasoned and cooked) meals and dishes, frozen, vacuum-packaged or canned. They are packaged and labelled for re-sale". The word "usually" was removed from the beginning of the last sentence. See notes to CPA: 10.13.15, 10.39.15, 10.39.16 i 10.39.17.

10.85.14 Prepared meals and dishes based on pasta

Proposal All pasta dishes are currently classified to NACE Rev. 2 class 10.73. Nevertheless CPA 2008 subcategory 10.85.14 includes meals and dishes, based on pasta. The Working Group concluded that in connection with a future update/revision the "pasta dishes" should be classified to NACE Rev. 2 class 10.85 (manufacture of prepared meals and dishes) if they are preserved and in NACE Rev. 2 class 10.89 (manufacture of other food products) if they are "perishable". CPA 10.85.14 includes preserved pasta dishes CPA 10.89.19 includes perishable pasta dishes

10.89.19 Miscellaneous food products n.e.c.

Proposal Food supplements:

Food supplements are now included in CPA 10.89.19 but without specific identification. As this industry has gained in importance during the last decade it would deserve a specific subcategory.

The content of food supplements can be assessed by using the definition of the Directive 2002/46/EC of the European Parliament and Council of 10 June 2002: "Food supplements are concentrated sources of nutriment or other substances with a nutritional or physiological effect whose purpose is to supplement the normal diet. They are marketed 'in dose' form i.e. as pills, tablets, capsules, liquids in measured doses etc."

So, we propose to create a new subcategory in CPA 10.89 for food supplements. This heading should be linked with CN 2106 90 9 (secondary link).

18.12.1 Other printing services

Proposal The UN has decided to transfer silk-screen printing on textiles and wearing apparel from class 13.30 (Finishing of textiles) to 18.12 (other printing). The CPA should be consistent and it should be investigated if after this change to ISIC/NACE there is something left in CPA 2008 subcategory 13.30.14 (printing services of fabrics and textile articles) now that silk-screen printing on textiles and wearing apparel no longer is included in CPA 2008 subcategory 13.30.14.
If CPA 2008 subcategory 13.30.14 (printing services of fabrics and textile articles) only included silk-screen printing on textiles and wearing apparel this sub-category is empty and should disappear and – if necessary - a code for printing services of fabrics and textile articles should be created under the class 18.12.

26.11 Electronic components

Proposal 26.11 / 26.12

There are two related issues.

26.11 / 26.12

1) Manufacture of bare printed circuit boards is included in NACE 26.11 while manufacture of loaded printed circuit boards is in NACE 26.12. There is one heading for printed circuit boards in CPA: it is CPA 26.12.10 Loaded printed circuits, linked to CN 8534 00.

So a CPA subcategory should be created in 26.11 for bare printed circuit boards. We can assume that in CN 8534 00, CN 8534 00 11 Multilayer printed circuits, consisting only of conductor elements and contacts and 8534 00 19 Printed circuits consisting only of conductor elements and contacts (excl. multiple printed circuits) could be linked to this new heading. The two CN codes should be dropped in CPA 26.12.10.

In CPA 26.11.91 explanatory notes (inclusions), "printed circuits" should be replaced by "integrated circuits" as micro assemblies on printed circuits are not in 26.11 but in 26.12. Title of 26.12.91 should be extended with "... and micro assembling on printed circuits".

2) Loaded electronic boards should be described in CPA 26.12 as the output of NACE 26.12. Smart cards or interface cards are described in CPA 26.12.20 and 26.12.30 but where are other loaded electronic boards? The only candidate is subcategory 26.12.10 Loaded printed circuits (if we understand 'loaded' as 'loaded with active elements'. If it is right the title of this heading should be enlarged. Another issue is the CN link which is empty. The possible explanation for this is that typical loaded electronic boards designed to be included in machines and equipment (not in computers) seem to be dealt with as parts of these machines and equipment in CN and classified in the appropriate headings in classes where these machines and equipment are manufactured.

So assignment of loaded electronic boards in CPA should be clarified and links to CN should be checked.

26.51.12 Rangefinders, theodolites and tachymetres (tachometers); other surveyi

Proposal 26.51 / 26.70

Explanatory notes (inclusions) of NACE 26.70 include “manufacture of optical measuring and checking devices and instruments (e.g. fire control equipment,² photographic light meters, range finders)”. The issue is that related products are not described in CPA 26.70 but in other classes.

For the 3 quoted products:

- Light meters are identified in HS 9027, probably in 9027 80 05 with exposure meters, linked to CPA 26.51.53.
- Range finders are identified in CN 9015 10, linked to CPA 26.51.12. Range finders are moreover quoted in the title of this CPA heading.
- “Fire control equipment” is difficult to identify in CPA and CN. What is the difference with “Burglar or fire alarms” described in CPA 26.30.50?

So, we propose to make the minimal adjustment in CPA to be consistent with NACE:

- Move light meters and range finders from CPA 26.51.53 and CPA 26.51.12 to a new CPA 26.70.26 “Optical measuring and checking devices and instruments”
- Drop “range finders” in the title of CPA 26.51.12.
- In CPA 26.70.26, add links with CN 9027 80 05 and 9015 10 and remove them from CPA 26.51.53 and CPA 26.51.12.

26.70 Optical instruments and photographic equipment

Proposal 26.51 / 26.70

Explanatory notes (inclusions) of NACE 26.70 include “manufacture of optical measuring and checking devices and instruments (e.g. fire control equipment,² photographic light meters, range finders)”. The issue is that related products are not described in CPA 26.70 but in other classes.

For the 3 quoted products:

- Light meters are identified in HS 9027, probably in 9027 80 05 with exposure meters, linked to CPA 26.51.53.
- Range finders are identified in CN 9015 10, linked to CPA 26.51.12. Range finders are moreover quoted in the title of this CPA heading.
- “Fire control equipment” is difficult to identify in CPA and CN. What is the difference with “Burglar or fire alarms” described in CPA 26.30.50?

So, we propose to make the minimal adjustment in CPA to be consistent with NACE:

- Move light meters and range finders from CPA 26.51.53 and CPA 26.51.12 to a new CPA 26.70.26 “Optical measuring and checking devices and instruments”
- Drop “range finders” in the title of CPA 26.51.12.
- In CPA 26.70.26, add links with CN 9027 80 05 and 9015 10 and remove them from CPA 26.51.53 and CPA 26.51.12.

27.11.50 Ballasts for discharge lamps or tubes; static converters; other inductors

Proposal 27.11.50 / 27.90

Explanatory notes (inclusions) of NACE 27.90 include “manufacture of solid state inverters, rectifying apparatus, fuel cells”. According to exclusions notes of NACE 27.11, manufacture of converters is as well included in NACE 27.90. The issue is that related products are not described in CPA 27.90 but in other classes. Except for fuel cells (where is it in HS?), the location of these products in CPA is subcategory 27.11.50:

- Inverters are in CN 8504 40 84, 88
- Rectifiers are in CN 8504 40 40, 81
- Converters are in CN 8504 40 30, 90

So, we propose to make the minimal adjustment in CPA to be consistent with NACE:

- Move inverters, rectifiers, converters, fuel cells to CPA 27.90.40 or create a new subcategory in CPA 27.90.4 for these goods.
- Drop “static converters” in the title of CPA 27.11.50 and add “inverters, rectifiers, converters, fuel cells” to the title of CPA 27.90.40 (or new subcategory).
- In CPA 27.90.40 (or new subcategory), add links with CN 8504 40 30, 40, 81, 84, 88, 90 and remove them from CPA 27.11.50.

Proposal 27.12.10 / 27.90

Explanatory notes (inclusions) of NACE 27.90 “manufacture of surge suppressors (except for distribution level voltage)”. The issue is that related products are not described in CPA 27.90 but in CPA 27.12.10, as the CN heading 8535 40 00 “Lightning arresters, voltage limiters and surge suppressors, for a voltage > 1.000 V” is linked to CPA 27.12.10. The scope of this CPA subcategory is too large as only manufacture of surge suppressors for distribution level voltages is included in NACE 27.12.

So, we propose to make the minimal adjustment in CPA to be consistent with NACE:

- Move “Surge suppressors, for a voltage > 1.000 V (except for distribution level voltage)” from CPA 27.12.10 to CPA 27.90.40. It means creating a secondary link between CPA 27.90.40 and CN 8535 40 00.
- As the extent of this change is limited in scope, is it not necessary to change the title of CPA 27.90.40.

27.32.13 Other electric conductors, for a voltage ≤ 1 000 V**Proposal** 27.32.13 / 27.90

Explanatory notes (inclusions) of NACE 27.90 include “manufacture of appliance cords, extension cords, and other electrical cord sets with insulated wire and connectors”. The issue is that related products are not described in CPA 27.90 but in CPA 27.32.13, as the CN heading 8544 42 10, 90 “Electric conductors, for a voltage ≤ 1.000 V, insulated, fitted with connectors, n.e.s.” is linked to CPA 27.32.13.

So, we propose to make the minimal adjustment in CPA to be consistent with NACE:

- Move “appliance cords, extension cords, and other electrical cord sets with insulated wire and connectors” to CPA 27.90.40 or create a new subcategory in CPA 27.90.4 for these goods.
- Add “Electrical cord sets with insulated wire and connectors” to the title of CPA 27.90.40 (or new subcategory).
- Move the link with CN 8544 42 10, 90 from CPA 27.32.13 to CPA 27.90.40.

Proposal 27.32.13 / 27.90

Explanatory notes (inclusions) of NACE 27.90 include “manufacture of appliance cords, extension cords, and other electrical cord sets with insulated wire and connectors”. The issue is that related products are not described in CPA 27.90 but in CPA 27.32.13, as the CN heading 8544 42 10, 90 “Electric conductors, for a voltage <= 1.000 V, insulated, fitted with connectors, n.e.s.” is linked to CPA 27.32.13.

So, we propose to make the minimal adjustment in CPA to be consistent with NACE:

- Move “appliance cords, extension cords, and other electrical cord sets with insulated wire and connectors” to CPA 27.90.40 or create a new subcategory in CPA 27.90.4 for these goods.
- Add “Electrical cord sets with insulated wire and connectors” to the title of CPA 27.90.40 (or new subcategory).
- Move the link with CN 8544 42 10, 90 from CPA 27.32.13 to CPA 27.90.40.

28.21.1 Ovens and furnace burners and parts thereof

Proposal The NACE Rev. 2 explanatory notes for class 28.21 include household-type heating appliances as follows:

- manufacture of permanent mount non-electric household heating equipment, such as solar heating, steam heating, oil heat and similar furnaces and heating equipment"
- manufacture of electric household-type furnaces (electric forced air furnaces, heat pumps, etc.), non-electric household forced air furnaces"

The CPA however does not include subcategories for those products. These items should be included in CPA. The CN should – if necessary - reflect it in terms of secondary CN correspondences.

New subcategory 28.21.15 "Household-type heating appliances" including permanent mount non-electric household heating equipment, such as solar heating, steam heating, oil heat and similar furnaces and heating equipment, electric household-type furnaces (electric forced air furnaces, heat pumps, etc.), non-electric household forced air furnaces

28.41.22 Machine tools for drilling, boring or milling metal; machine tools for thr

Proposal 28.41 / 28.49

Explanatory notes (inclusions) of NACE 28.49 include “manufacture of stationary rotary or rotary percussion drills, filing machines, riveters, sheet metal cutters”. The issue is that related products are not described in CPA 28.49. The location of these goods is not easy to find in the HS as the vocabulary used is quite different. We think that the quoted products belong to different subcategories of CPA 28.41 as follows:
· “Drilling machines for working metal” is a part of CN 8459 21, 29, linked to CPA 28.41.22.

· Riveters is a part of CN 8463 90 00 “Machine tools for working metal, sintered metal carbides or cermets, without removing metal”, linked to CPA 28.41.34.

· Shearing machines for working flat metal products are included in CN 8462 39 10 and part of CN 8462 31 00, linked to CPA 28.41.32.

So, we propose to make the minimal adjustment in CPA to be consistent with NACE:

· Create a new subcategory CPA 28.49.13 “Stationary rotary or rotary percussion drills, filing machines, riveters, sheet metal cutters”.

· Move the links with CN heading 8462 39 10 from CPA 28.41.32 to CPA 28.49.13.

· Add secondary with CN heading 8459 21, 29, 8462 31 00, 8463 90 00 from CPA 28.41.22, 32, 34 to new CPA 28.49.13.

· Modifying titles of the 3 subcategories of CPA 28.41 could be considered, but seems not easy.

28.41.32 Machines for shearing, punching and notching metal

Proposal 28.41 / 28.49

Explanatory notes (inclusions) of NACE 28.49 include “manufacture of stationary rotary or rotary percussion drills, filing machines, riveters, sheet metal cutters”. The issue is that related products are not described in CPA 28.49. The location of these goods is not easy to find in the HS as the vocabulary used is quite different. We think that the quoted products belong to different subcategories of CPA 28.41 as follows:
· “Drilling machines for working metal” is a part of CN 8459 21, 29, linked to CPA 28.41.22.

· Riveters is a part of CN 8463 90 00 “Machine tools for working metal, sintered metal carbides or cermets, without removing metal”, linked to CPA 28.41.34.

· Shearing machines for working flat metal products are included in CN 8462 39 10 and part of CN 8462 31 00, linked to CPA 28.41.32.

So, we propose to make the minimal adjustment in CPA to be consistent with NACE:

· Create a new subcategory CPA 28.49.13 “Stationary rotary or rotary percussion drills, filing machines, riveters, sheet metal cutters”.

· Move the links with CN heading 8462 39 10 from CPA 28.41.32 to CPA 28.49.13.

· Add secondary with CN heading 8459 21, 29, 8462 31 00, 8463 90 00 from CPA 28.41.22, 32, 34 to new CPA 28.49.13.

· Modifying titles of the 3 subcategories of CPA 28.41 could be considered, but seems not easy.

28.49 Other machine tools

Proposal 28.41 / 28.49

Explanatory notes (inclusions) of NACE 28.49 include “manufacture of stationary rotary or rotary percussion drills, filing machines, riveters, sheet metal cutters”. The issue is that related products are not described in CPA 28.49. The location of these goods is not easy to find in the HS as the vocabulary used is quite different. We think that the quoted products belong to different subcategories of CPA 28.41 as follows:
 · “Drilling machines for working metal” is a part of CN 8459 21, 29, linked to CPA 28.41.22.

· Riveters is a part of CN 8463 90 00 “Machine tools for working metal, sintered metal carbides or cermets, without removing metal”, linked to CPA 28.41.34.
 · Shearing machines for working flat metal products are included in CN 8462 39 10 and part of CN 8462 31 00, linked to CPA 28.41.32.

So, we propose to make the minimal adjustment in CPA to be consistent with NACE:

- Create a new subcategory CPA 28.49.13 “Stationary rotary or rotary percussion drills, filing machines, riveters, sheet metal cutters”.
- Move the links with CN heading 8462 39 10 from CPA 28.41.32 to CPA 28.49.13.
- Add secondary with CN heading 8459 21, 29, 8462 31 00, 8463 90 00 from CPA 28.41.22, 32, 34 to new CPA 28.49.13.
- Modifying titles of the 3 subcategories of CPA 28.41 could be considered, but seems not easy.

49.10 Passenger rail transport services, interurban

Proposal Sale of advertising space for own account should be included in the main activity class of the owner of the advertising medium according to exclusion notes of CPA 73.12. In CPA, such services are explicitly mentioned for media but not for web portals and they are not identified outside section J. Yet it would be desirable to identify explicitly these services in specific CPA headings in NACE classes where they value might be important.

So there are two areas for designing new CPA subcategories:

- In section J, sale of Internet advertising space is included in CPC 83633, linked both to ISIC 6311 and 6312: link with CPA 63.12 has been forgotten. So a subcategory should be created in class 63.12, including Internet advertising space in web portals;
- A subcategory should be created in class 58.12 (and maybe 58.19) for sale of Internet advertising space.
- In other sections, CPA subcategories should be created in NACE classes where enterprises operate advertising media like billboards, buildings, vehicles or naming rights (tournaments, stadiums) for own account. According to our national experience, high advertising turnovers may be found in sections H and R, especially in the following classes which deserve a new CPA heading: 49.10, 49.20, 49.31,49.32, 52.21, 52.29, 93.11, 93.12, 93.19.

73.12 Media representation services

Proposal Sale of advertising space for own account should be included in the main activity class of the owner of the advertising medium according to exclusion notes of CPA 73.12. In CPA, such services are explicitly mentioned for media but not for web portals and they are not identified outside section J. Yet it would be desirable to identify explicitly these services in specific CPA headings in NACE classes where they value might be important.

So there are two areas for designing new CPA subcategories:

- In section J, sale of Internet advertising space is included in CPC 83633, linked both to ISIC 6311 and 6312: link with CPA 63.12 has been forgotten. So a subcategory should be created in class 63.12, including Internet advertising space in web portals;
- A subcategory should be created in class 58.12 (and maybe 58.19) for sale of Internet advertising space.
- In other sections, CPA subcategories should be created in NACE classes where enterprises operate advertising media like billboards, buildings, vehicles or naming rights (tournaments, stadiums) for own account. According to our national experience, high advertising turnovers may be found in sections H and R, especially in the following classes which deserve a new CPA heading: 49.10, 49.20, 49.31,49.32, 52.21, 52.29, 93.11, 93.12, 93.19.

74.10.19 Other specialised design services

Proposal The product “graphic design for advertising purposes” is included in CPC Ver.2 83919 linked to CPA 74.10.19 Other specialised design services. Yet all advertising design is included in CPA 73.11.13 Advertising design and concept development services. Consistency between CPC and CPA requires a change in CPA by moving graphic design for advertising purposes from CPA 73.11.13 to CPA 74.10.19.

Proposal

- Drop “designing the layout for a print advertisement, illustration, poster” in CPA 73.11.13
- Drop “design” in the title of CPA 73.11.13
- Add “including graphic design for advertising purposes” in the last bullet of explanatory notes of CPA 74.10.19

93.11 Sports facility operation services

Proposal Sale of advertising space for own account should be included in the main activity class of the owner of the advertising medium according to exclusion notes of CPA 73.12. In CPA, such services are explicitly mentioned for media but not for web portals and they are not identified outside section J. Yet it would be desirable to identify explicitly these services in specific CPA headings in NACE classes where they value might be important.

So there are two areas for designing new CPA subcategories:

- In section J, sale of Internet advertising space is included in CPC 83633, linked both to ISIC 6311 and 6312: link with CPA 63.12 has been forgotten. So a subcategory should be created in class 63.12, including Internet advertising space in web portals;
- A subcategory should be created in class 58.12 (and maybe 58.19) for sale of Internet advertising space.
- In other sections, CPA subcategories should be created in NACE classes where enterprises operate advertising media like billboards, buildings, vehicles or naming rights (tournaments, stadiums) for own account. According to our national experience, high advertising turnovers may be found in sections H and R, especially in the following classes which deserve a new CPA heading: 49.10, 49.20, 49.31,49.32, 52.21, 52.29, 93.11, 93.12, 93.19.

Proposal Home care services (generic description):

In France and a lot of EU countries there are a range of personal services aimed at improving daily life of individuals or households (called 'services à la personnel' in France). These services are mainly delivered at home or other personal accommodation and, for a large part, are social services. Development of such services is often stimulated by benefits or tax cuts. They belong to 3 main fields:

- child care services (mainly for babies or young children in families where both parents have a job)
- assistance services for the elderly and disabled people, without medical care (help to get washed, dressed, shopping and meal preparation, help for eating, help for intellectual and social life, daily nursing, assistance to mobility for non autonomous people ...)
- assistance services for "standard" daily life at home (housework, washing and ironing of clothes, home garden maintenance, minor DIY, help for administrative obligations, home school support courses ...)

These home care services are important now and will increase in the future, according to the needs of families as well as of aged and disabled people. A few of them are identified in CPA in specific headings, but most of them are not. So particular subcategories would be useful to identify the main components of these services in CPA : it means splitting some present subcategories according to the location of delivery for the service (at home or other personal accommodation, elsewhere) and, for a few cases, adding more details in CPA according to the characteristics of the service.

It should be stressed that a large part of these services are provided in the framework of contractual arrangement between the beneficiary and the person providing the service, the former been the employer of the latter. The related activities and products should be therefore classified in division 97 Services of households as employers of domestic personnel, where more details would be needed to get information on the kind of service delivered.
